

23/09/2020

Dear Parent/Carer,

On Monday 28th September we will be running a 'Virtual Day' at school. This will require all students to bring in the equipment that they used to access virtual lessons during lock down, whether that is their laptop or iPad/tablet or phone.

We will be spending the day practicing accessing virtual learning and hopefully finding out where students are struggling and ironing out any problems that they may have connecting to our resources.

We hope that we are not in the position of being put back into lock down, but want to ensure that should such a situation arises students will be able to continue learning from home without interruption.

We will also expect that if your child is forced to self-isolate, but is not ill, that they should continue participating in learning.

If you have any problems sending your child into school with their equipment, please contact Ms Coppins on the school reception, at info@stephensonstudioschool.co.uk. We will have some equipment for those students who do not have access to a laptop or tablet.

Yours sincerely

Mr S Collishaw

(Deputy Headteacher)
